GARTH WAKEFORD

Urban Wellness Clinic (https://urbanwellnessclinic.com/)

Pose Method Running Instructor

As UWC's go-to running expert, Garth is a seasoned marathoner (including the New York City marathon in 2009), with over 15 years' training experience. Garth advocates the Pose Method, a more efficient running stance that optimizes performance times, prevents injury, and lessens the strain on knees. He combines video analysis and various drills to ensure patients develop a smooth, fast gait, and are fit to race pain-free.

"TRAIN FOR LIFE."

Garth has a BA in Human Movement Science and Kinesiology from Rhodes University, South Africa. He's a certified personal trainer (http://urbanwellnessclinic.com/services/personal-training/) through the National Academy of Sports Medicine, with additional training in Neurokinetic Therapy (http://urbanwellnessclinic.com/neurokinetic-therapy/).

A lifelong athlete—and former pro rugby player—Garth also surfs, paddle boards, and golfs. Currently, he's building up a new roster of rugby-loving teens and adults in East Hampton.
